World Class Global Trade Operations

fruiSCE

Global Trade Management System...

Global supply chain operations are complex in nature to stay in compliance with the regulations that govern cross-border shipments. fruiSCE® Global Trade Management reduces friction in global supply chains by helping clients in screening against sanctioned party lists, managing export licenses and classifications, handling embargo checks, import/export documents, calculate duties, track international shipments, and ensuring import controls. fruiSCE® GTM solution helps shippers to determine total landed cost against their global shipments. The communication between transportation and logistics service providers, custom brokers, foreign trade agents and third-party service providers is greatly improved through fruiSCE® GTM to create edge over the competitors.

Supply Chain Flow
